EXECUTIVE PROFILE

Seasoned and independent Front End Developer with over 7 years of experience in blending the art of design with skill of programming to deliver an immersive and engaging user experience through efficient website development, proactive feature optimization, and relentless debugging. Very passionate about JavaScript and its Frameworks.

Throughout my career as a front end developer I've emphasized the importance of scalable and well documented code. I enjoy working collaboratively but can also run with projects on my own. Excited about the prospect of joining a product-driven company leverage my experience building responsive and scaleable web apps to solve interesting problems that delight end-users. Detailed knowledge of domain, hosting and deployment on various web services like AWS, Netlify, Heroku and GitHub.

Exceptional track record of preparing responsive hand written codes using media queries for responsive web designs, thus ensuring compatibility with the major browsers and cross the devices. Enthusiastic and hardworking team player with a passion for creating beautiful and functional user interfaces and experiences.
